

## Thank you Letter to Elders from Parents

*(Note: When Elders sign up,  
this is a suggested thank you letter  
you can send to each one.  
Re-write it or add to it whatever you like.)*

Elder: \_\_\_\_\_

TFAC Trust Fund Child's Name: \_\_\_\_\_

Child's TFAC ID: \_\_\_\_\_

Amount of Monthly Contribution to Child's TFAC Trust Fund: \_\_\_\_\_

Dear (place the Elder's first name),

Wow! We want to thank you for choosing to be a member of (name of child)'s Community of Elders of (his or her) TFAC Trust Fund!

You are not only declaring you want to support our family in raising (him or her), but you are also participating in (him or her) having at least minimum financial security (his or her) entire life. A deep thank you!

As you know, the money you and other Elders are contributing to (his or her) TFAC Trust Fund will grow without taxation (his or her) entire life. From nineteen years old on, this will allow for significantly higher monthly distributions! This is allowed by the IRS in exchange for the balance upon (his or her) death going into the TFAC Global Fund. There it will be invested forever with no expenses deducted. Any annual profits will solely be used to begin TFAC Trust Funds for poor children around the world.

Therefore, you are also part of ending poverty on Earth in two ways. Both by supporting (name of child)'s TFAC Trust Fund and by having \$1 of your monthly contribution covering the costs of both the TFAC Trust Funds and TFAC Global Fund. This is making it more attractive for people and organizations to donate to the TFAC Global Fund.

You are both financially supporting (name of child) and participating in a significant way to end poverty on Earth from the bottom up. Now, based on the number of people who create TFAC

Trust Funds for their children, and the amount of money donated to the TFAC Global Fund, it is only a matter of time before we eventually end poverty on Earth. With TFAC, it is inevitable!

Thank you for being a member of (name of child)'s Community of Elders!

(Your name or names)
